

PLUMB*IT*

EXTENDABLE LEVELS

The Plumb-it Extendable Level...

- Point to point
- Quick Extension
- Solid Locking

Precision Cast Vials

Built In One Inch Offsets:

Allows point to point or top to bottom plate readings instantly with out add-ons. Crowned or bowed structural members can be set end to end, then straightened if necessary.

Durable Construction:

Hefty polyurethane ends absorb shock.

Built In Straight Edge:

Flush side, opposite the offset side, is a straight edge that can be used as a gauge to shim bowed structural members.

Interlocking triple anodized I-Beam design prevents damage from bending.

Extendable

Infinite settings in range. Extends almost 3 times compressed length and anywhere in between. Remains rigid when extended due to patented grip release mechanism.

Vials are Precision Milled Solid Cast Acrylic:

The only Solid Cast Vial available (not injection molded). Guaranteed for Life to remain accurate and never leak or fog.

Accuracy from the factory is:

.014° degrees reading up or down, which is .00025" per inch, .003" per ft. or .25mm per meter. Factory Set for life—never needs adjustment.

Uses of the Plumb-it Level:

- **Plumb and Line** especially on Balloon, Clip, Rake and Gable End walls
- **Concrete Formwork** setting crowned form boards level end to end
- **Cabinets** when doing initial measurements for layout and when installing kicks, cabinets and countertops
- **Finish Carpentry** on door jambs, closet shelving cleat layout
- **Siding** layout between columns
- **Aluminum** widow and Curtain Wall layout and installation
- **Mirror** walls & wallpaper layout
- **Tenant Improvement** layout for stud height and stud location around existing ductwork and other protrusions
- **General Layout** Tool as diagonal in 3,4,5 dimensions & to determine existing wall plumbness when remodeling
- **Tilt-up** concrete panel locator
- **Basement** layout line transfer

Lifetime Service: Complete rebuild service and parts readily available.
